

19/1/2018- Tracey's words Resound Church

God sees you as a partnering Church, connectors, influencers. Mission focused, local level projects being main hallmark of what you do, but this has ripple effects to national and international work. Great outputs and outcomes from local work. You are a choice partner. Highly favoured in the community. More blessing will come from this favour, through loving the community. You are a benchmark Church. Role models. Pioneers. Authentic. Own heartbeat that is closely linked with the very beat of God's, full body of Christ - just missing some toes! Sense of greater balance needed..

toes bring balance to the body. Don't miss those important links, those important people. Praying helps bring the balance in. Prayer warriors going deeper and further in will bring more stability to the body. Praise rising higher brings greater balance. Toes can be seen as the least attractive part of the Church, but toes are absolutely vital to balance and stability.

Keep testifying to God's goodness. keep taking in the rough and ready. God saying, Remember..Its not just the marginalised that need love. All need love. The prodigals and the perfects. You are a resurrecting Church. Bringing life where there was death. Bringing courage and empowerment to many lives.

I also think there is something in the name resound - like the vibration - like a rebound what you give out comes back too. The name is prophetic. Everything you do will vibrate and be felt across the nation and nations. You are the one people are watching. Leaders.

Student revival is going to come through Resound Bristol. Galatians 5. Freedom, grace-filled church. God loves your Church and claims it as His. He is present in your meetings and you will see more breakthrough in the next season.
